

How we take care of you
and your trucks:

TSC

The Toyota Service Concept is based on the TPS principle and is unique in the industry.

Total lifetime support

Maintenance, repairs, back-up with extra trucks, driver training and management information.

Real-time information

Instant online access to updated information such as technical support, truck history, parts, truck availability and effective time and route planning.

Exact-fit

In terms of parts and people, with structured training and accreditation processes.

GPRS/3G

Smart truck telemetry allows better safety standards (including driver management) and complete fleet control for improved safety, efficiency and cost reduction (with Toyota I_Site).

We think
customer first

Reliability
Confidence
Availability
Productivity
Quality
Safety
Cost-efficiency
Sustainability
Environment

These are the expectations of our customers, with fleets of all different sizes. We get to know them through surveys, sales discussions and service visits. We are always there for them, all over Europe.

Toyota
Material Handling
in Europe

Total coverage
The Toyota Material Handling network extends to over 30 countries in Europe with more than 4500 mobile technicians.

Always local – with global support
Wherever you are located in Europe, we are always local, due to our extensive coverage, but with the stability and back-up of a worldwide organisation.

Made in Europe
Over 90% of trucks we sell are built in our own European factories, in Sweden, France and Italy – all to TPS quality standards. We employ over 3000 production staff in Europe and work with over 300 European suppliers.

Approximately 15% of our European production is exported to other parts of the world.

Toyota Offer
Products, Services and Solutions

How we plan
your operation:

Advice

Your local sales contact functions as a business advisor for all handling and logistics operations. He or she will analyse your requirements and find efficient solutions, as well as support your activities during the planning and operational phases.

Complete range

We offer you a complete range of Toyota trucks: warehouse trucks, tow tractors, counterbalanced trucks and automated solutions.

Solutions

We offer you financial options, including finance lease and long term rental programmes. Our quality approved used trucks are available at a competitive cost level. You can also plan forward with short-term rental options to handle peak periods of activity.

How we build
quality trucks:

TPS

The world-renowned Toyota Production System is the strong foundation for quality in manufacturing.

Kaizen

A process of continuous improvement, achieved by following a clear set of values.

ISO 14001

All trucks are produced to these quality standards with minimum environmental impact.

European

Over 90% of our trucks sold in Europe are built in our factories in Sweden, France or Italy.

TOYOTA LI-ION TRUCK RANGE

		
---	---	---

A UNIQUE LI-ION RANGE

Toyota trucks equipped with Lithium Ion batteries offer higher productivity while consuming up to 30% less energy. This environmentally conscious technology allows for fast and opportunity charging, eliminating the need for battery change. Li-Ion technology reduces the need for maintenance and even extends the battery's lifecycle, which makes it cost-efficient.
